MEET OUR EXPERTS

DR. KEVIN STREFF FOUNDED PARTNER

Dr. Kevin Streff is Founder of several cyber startups and acquisitions. His businesses have worked across all fifty states and internationally helping organizations comply with data protection legal and regulatory mandates, as well as planning and implementing sound information security and privacy strategies. Dr. Streff has commercialized his research into educational and software solutions used all over North America, receiving numerous grants and awards. For over 20 years, Dr. Streff was Professor & Research Lab Director at Dakota State University, a National Center of Excellence in Cyber Defense through the National Security Agency, and The Department of Homeland Security. He is a renowned speaker on data security and privacy, addressing audiences both nationally and internationally. Featured in Money Magazine, CNN Online, The Wall Street Journal, and other prominent outlets, his research is published in leading academic journals and showcased at prestigious conferences. Dr. Streff has also testified before Congress, both in field hearings and in Washington, DC, advocating for sound national policy on critical issues.

DR. LISA MCKEE FOUNDED PARTNER

Dr. Lisa McKee, Founding Partner at American Security and Privacy, has over 20 years of industry experience. She provides services, assessments, training, program development and leadership as a virtual Data Protection Officer (vDPO) for companies globally. Lisa has a PhD in Cyber Defense with an emphasis in Privacy. She is a highly regarded privacy expert and international speaker and event keynoter. As a member of the Accredited Standards Committee X9, she provides input on industry standards. She shares her passion for privacy as an APMG ISACA Certified Trainer, volunteer on boards for several professional groups, mentor, and assistant professor for graduate students. She has also authored several publications including a Data Privacy Management textbook.

The ASP Academy™ provides privacy and security educational programs specific to the needs of the banking industry and the role performed at the bank. This will ensure that a banker has the knowledge and skills necessary to protect against today's data privacy and information security threats. **All programs are available 100% online!**
